

Use your computer for a Televisit

Your computer must have a built in camera with microphone. Before starting your Televisit ensure that you are in a private and quiet area with good internet connection.

1. 15 minutes prior to your appointment go to <https://nampaobgyn.com> and click on “Patient Portal.”

2. Login to your Patient Portal

3. Click on the orange “Join Televisit” button toward the bottom of the screen.

4. Please fill in your vital signs as thoroughly and accurate as possible. Each field does **NOT** need to be populated in order for you to continue. After your vital signs are filled in and submitted you are “checked in.”

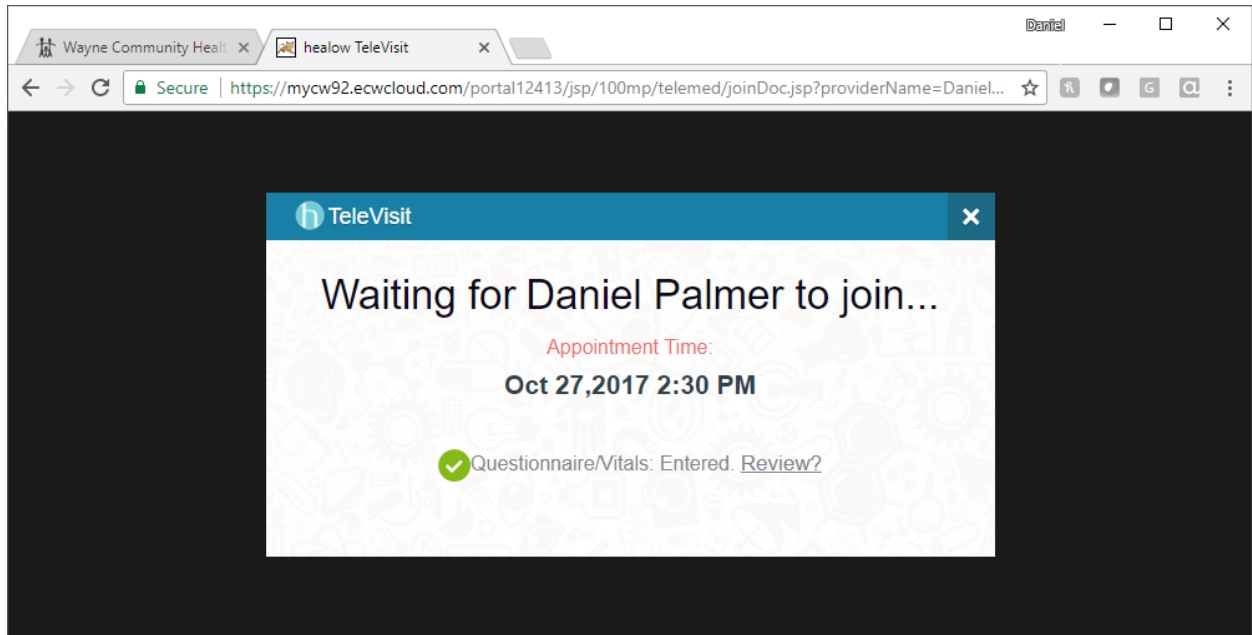

5. Your computer will automatically run a system compatibility check. Wait for your computer to complete this process. Once it finishes you will be able to click **“Proceed”** on the bottom left of the screen.

The screenshot shows the 'TeleVisit System Compatibility Check' interface. On the left, there are two sections: 'Computer' and 'Connection'. The 'Computer' section lists: Browser (Chrome 64 bit(version 61) Windows 10.0), Speaker (Ensure your speakers are working by clicking "Play" below), Camera (Integrated Webcam (0c45:6713)), and Microphone (Default). The 'Connection' section lists: Video Connection and Bandwidth. All items have a green checkmark. At the bottom left, there are two buttons: '<< Review Vitals' and 'Proceed'. A large green arrow points to the 'Proceed' button.

6. When you are ready to start your visit click **“Start Televisit.”**

The screenshot shows the 'TeleVisit' interface after a successful vitals submission. A large blue checkmark icon is centered on the screen. Below it, the text reads 'The Vitals have been submitted successfully'. At the bottom center, there is an orange button labeled 'Start TeleVisit'. At the bottom left, there is a button labeled '<< Review Vitals'. The top navigation bar includes 'Dashboard', 'TeleVisit | Daniel Palmer | 27 Oct 2017', and 'Help? | Log out'. The progress bar shows 'Vitals' and 'Compatibility Check' as completed steps.

7. At this screen you will wait for your provider to connect. This may take a few minutes.

8. Once your provider joins your visit will begin. When the visit is complete click the red phone icon at the bottom of the screen.
